EDUCATION

McMaster University, Hamilton, ON Sep 2021 – Apr 2027 (expected)
Honour's Bachelor of Engineering and Management in Software Engineering – 5 year degree & 16 months Co-op
Placed on Dean's Honour List all 4 years in recognition of academic excellence

AWARDS & ACHIEVEMENTS

- **Technical Distinction – RBC Amplify:** Received recognition and the top engineering prize of **\$20,000** for **engineering quality and craftsmanship** throughout internship
- **Provisional Patent:** Filed a **provisional patent** for Blink, an **intelligent wire payment routing engine** designed to optimally send clients' money to ensure correct transfer of funds

SKILLS

Languages: Python, Java, SQL, Matlab, C, Go

Technologies: SpringBoot, PostgreSQL, Pandas, NumPy, Docker, TensorFlow, Keras, OpenShift

Tools: Git, Jira, DBeaver, VS Code, JetBrains IDEs, MS Office Suite

WORK EXPERIENCE

Royal Bank of Canada May 2025 – Aug 2025
Developer, RBC Amplify Program *Toronto, ON*

- **Architected, designed, and developed** a wire payment routing engine in **Java, SpringBoot, DMN, PostgreSQL**, which integrated SWIFT and internal data to move money from bank to bank efficiently
- Developed a **customizable route selection algorithm** to allow for routes to change as the business requires
- Product to be utilized by the High Value Payments Engine, optimizing **30,000+ payments/month**
- Pitched the idea, product, future scope, and impact to senior executives and 300+ attendees
- Refined **communication, business, and product management skills** in the project lifecycle

Jacor Marketing Apr 2024 – Jun 2024
Warehouse Clerk - Order Fulfillment & Inventory Manager *Vaughan, ON*

HeyBrain AI Apr 2023 – Jun 2023
Software Developer Intern - User Interaction *Remote*

Camp Shalom & Camp Biluim Summers 2021 - 2024
Camp Counsellor - Head of Sports *Gravenhurst, ON & Mont Tremblant, QC*

Upcoming Internship – Royal Bank of Canada Sep 2025 – Dec 2025 (upcoming)
Software Developer Intern - Tia Tech Support Bot *Toronto, ON*

PROJECTS

Sport Identification Neural Network

- Built a neural network in **Python** using **Keras, TensorFlow, Streamlit** to classify sports from images
- Trained on 13,000+ images; achieves **80%+ accuracy**

Terrain Generation Simulator

- Developed 2D terrain generator in **Java** with a custom Polygon **ADT**
- Users control terrain type, temperature, biome, and features via input or seed

EXTRA-CURRICULAR ACTIVITIES

- President, Alpha Epsilon Pi Chapter – Led weekly meetings, social events, and community outreach
- Competed in intramural sports: Softball, Floor Hockey, Flag Football, Innertube Waterpolo
